## HOW TO GET ACCESS TO AN ACQUIRABLE PRIVATE DATASET

This tutorial details how to get access to a private dataset that can be acquired in the FIWARE Store.

1. After selecting the FIWARE Data portal, select the Datasets tab (Figure 1 Datasets tab in the Data PortalFigure 1) or search for a dataset in the *Search Your Data* field.

Figure 1 Datasets tab in the Data Portal

2. A list of the available Datasets will be shown. Private Datasets that can be acquired in the FIWARE Store Portal will show a Get Access button beside the Dataset title (Figure 2).

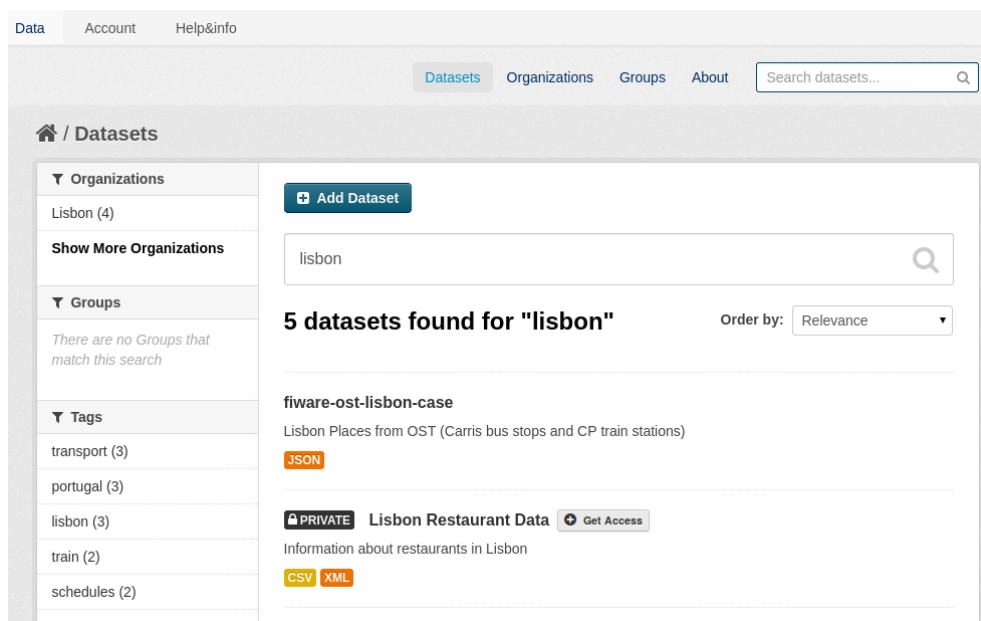

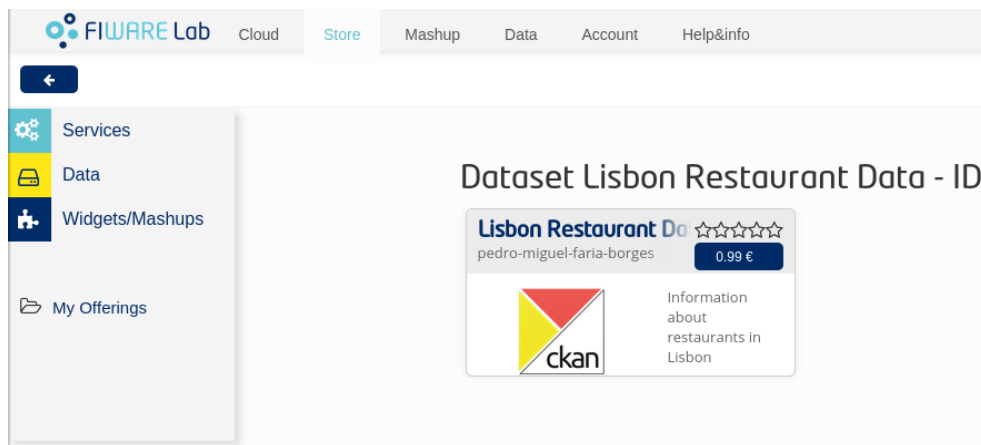

Figure 2 Dataset listing

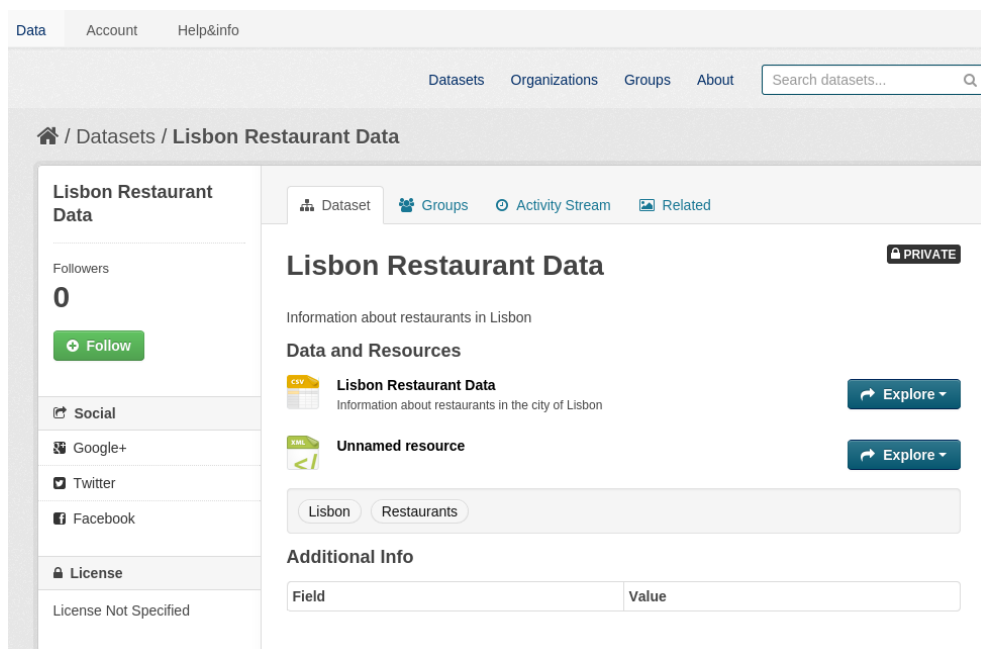

3. Clicking on the Get Access button will open the corresponding Dataset offering in the FIWARE Store Portal (Figure 3). From there you can acquire it.

*Figure 3 Private Dataset offering in the Store Portal*

4. After acquiring the dataset you will see the corresponding Dataset page in the Data Portal (Figure 4). You can now access the dataset data.
